

ALIGNMENTS

UNPRI

Coretrust is a pending signatory to the United Nations-supported Principles for Responsible Investment (UNPRI), the world’s largest reporting project on responsible investment. Our commitment to the UNPRI supports our larger goal of advancing sustainability and ESG. Our effort involves policies, assessments and investments at both the corporate and property levels, educational initiatives, and communications measures for the benefit of all Coretrust stakeholders. Under the UNPRI, we follow a specific set of procedures as an ESG disclosure mechanism to investors.

REAL ESTATE

GRESB

Beginning in 2022, Coretrust will submit all three Coretrust Value Fund I (“CVF I”) properties for evaluation by the Global Real Estate Sustainability Benchmarking (GRESB) organization on an annual basis. Results will be made available on each asset’s website in addition to being published through the GRESB portal.
